DETAILED ACTION

Claims

1. Claims 1 and 3-45 are pending.

Ex parte Quayle Action

2. This application is in condition for allowance except for the following formal matters: See item 7 below.

Prosecution on the merits is closed in accordance with the practice under Exparte Quayle, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

Allowable Subject Matter

3. Claims 1, 3, 6-12, 15-22, 24-31 and 42-45 are allowed.

Reasons for Allowance

- 4. The following is an examiner's statement of reasons for allowance:
- In view of applicants' remarks on pages 9-12 of the 21 January response, these claims are now deemed allowable over the prior art of record. The prior art of record fails to teach or suggest laminates, wraps and methods having all of the features recited in applicants' independent claims.
- 6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Application/Control Number: 10/027,261

Art Unit: 1772

Specification

7. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed. The laminate does not react; the materials contained therein do. The examiner suggests the following: "Laminate Structures Containing Activatable Materials".

Comment re: Claims 1 and 22

8. The language of claims 1 and 22 could be made more clear. It is suggested that, in the penultimate line of each, applicants insert --, when done, -- after "said intermixing".
